        Be Thankful!
      · ☐ Define Your Objectives.
        Figure out the decision or decisions you're trying to make
        to focus your survey.
      · ☐ Objectives
      · collect user feedback in order to understand
      · what worked? what didn't work?
      · how did the site feel?
      · browser and system type?
      · improve the application based on this feedback
      · ☐ Work Backwards.
        Once you've set your objectives, determine the data you
        need to gather in your survey to make your decision.
      · ☐ data needed
      · comments, textual feedback
        What's good, what could be better, and how?

- · general
- · look & feel
- · functionality
- · what worked?
- · what did not work?
- · ☐ Check for Bias.
  Make sure you're not asking leading questions.
- · ☐ Do a Test Drive.
  Send your survey to friends and colleagues for a test run. They'll help make sure your questions and response options are understandable and all your survey logic works.
- · ☐ Collect Results and Analyze Data.
  This is where it gets really fun. The data rolling in from your survey should help you decide what product to launch next, how to raise more money at your next fundraiser, what to do to keep customers coming back, what to serve at your next party and much more.

    Art Auction to Benefit PRAIRIE HILL
    Local artist and PRAIRIE HILL dad Chris Rudasill is donating several pieces of his original artwork to be sold in a silent auction. 100% of the profits will go directly to the further funding of art materials and enrichment opportunities at PRAIRIE HILL.
    Don't miss this great opportunity to see and purchase original artwork at accessible prices (some starting bids will be as

low as $10) while supporting education through year-round and summer camp programming at PRAIRIE HILL Learning Center.
